Robann Cunningham, B.S. Biology Candidate for Beechwood SBDM Council

Growing up in NKY I attended Notre Dame Academy where I was active in the Science Club, Student Council, and played soccer. I lived abroad in Japan for three years after college and I have traveled extensively both domestically and internationally. I count my travel experience as a key strength in developing a global perspective and my ability to collaborate with individuals from different backgrounds, cultures, and beliefs. Our children have thrived at Beechwood and we are so happy with our decision to put down our roots here in Ft. Mitchell. This picture was taken in June 2020 after I completed treatment for breast cancer.

Since beating cancer I feel stronger than ever, and I'm eager to serve. I believe my professional experience, our commitment to the school and community, as well as my leadership and communication skills will enable me to be a valuable member of the SBDM Council. I believe in fact-based decision making and I will bring an unbiased approach to the role. I am passionate about causes that support children and we are regular donors to the DCHH and Be Concerned. I appreciate your consideration and I would be honored to have your vote.

Sincerely, Robann
